LET'S BUILD GREAT INTERIORS – ONE RUG AT A TIME!

We believe that any interior can be elevated with uplifting colours and pleasant textures.

At massimo we do it one rug at a time and with the greatest of attention to design, quality, sustainability – and you. Because all great results start with dialogue, quality and empathy.

For more than 20 years massimo has focused on creating handmade rugs for both private homes, public spaces as well as developers.

We approach every inquiry with the same attention and curiosity, whether the best solution is one of our signature quality rugs always on stock or a one-of-a-kind bespoke rug designed and made especially for the occasion.

We cannot and we will not deny our Scandinavian origin. We have a passion for subtle, natural colour schemes and long-lasting functional design – but are not afraid to challenge and tempt with a bolder, more colourful alternative.

Afterall, a rug is the soul of a room – and some souls are simply more hot-spirited.

### ABOUT TANJA KIRST

Tanja Kirst's work is characterized by reflection on thoughts and details that you don't immediately recognize. This includes subtle colour transition and gradation into shades.

Tanja Kirst works with hemp as a sustainable alternative in textile design, rethinking a well-known material in a space between design and craftsmanship, she gives this eco-friendly material a whole new appeal.

With interaction and observation, all the functions and details can be experienced over time. This experimental process and way of designing is developed with an intention to add more value to the textile – and to give a poetic approach and longevity to the product.

### ABOUT OEO STUDIO

Thomas Lykke and Anne-Marie Buemann, founders of OEO Studio, have established a distinct aesthetic which bridges the difference between individual detail and overall décor. Their work can be seen in individual homes, hotels, furniture production and other applications.

Their philosophy allows for each project to develop its own 'soul'. This is a factor of both the natural materials they use and the vision a customer has in mind – as is the case with massimo's 'Fragments' series.

Colours and materials are often deployed in unexpected ways – each time taking inspiration from their potential to provide a convivial backdrop for human interaction.

## FRISS

The pattern that Karen Mimis mother started but never finished – her name was Friis, but somehow it ended up as FRISS in our Massimo collection. She embroidered it on a pillow with fine cross stitch – we are handknitting this decayed needlework fragment in 100% hemp, which is sustainable, natural, biodegradable and has a strong durability. Designed by Karen Mimi. Underlay carpet is recommended. Suitable for domestic and contract use.
