Core Collection

EARTH NATURAL

HANDWOVEN

100% UNDYED NATURAL WOOL MIX

Pile height: 11-12 mm
Weight: 4.0 kg/m²

The latest eco-conscious rugs collection is a celebration of natural properties of wool that takes us back to basics and teaches us to appreciate the beauty of nature. The beauty of this simple yet very contemporary collection is that it can work with any style and space. Minimalism, with a comfortable, warm and welcoming feeling.

Wool has thermo-regulating properties, is easy to care for, and can be repaired and enjoyed for years and years. Naturally stain-resistant, durable, and fire retardant, it can bring a touch of luxury and warmth to your interior.

EARTH HANDTUFT

HANDTUFTED

100% NEW ZEALAND WOOL

Pile height: 10 mm
Weight: 4,1 kg/m²

The Earth Handtuft Rug is expertly hand-tufted using 100% premium New Zealand wool, offering a unique blend of craftsmanship and quality. The hand-tufting technique creates a plush texture that adds depth and dimension to the rug, making it a standout piece in any room. This process ensures that each rug is carefully crafted for lasting durability and comfort.

New Zealand wool is naturally non-allergenic, fire-resistant, and resistant to dirt, providing a safe, low-maintenance rug for your home. Sourced sustainably with animal-friendly practices, the wool is biodegradable, making it an eco-conscious choice. With long, strong fibres that minimise shedding, this rug offers both beauty and practicality, bringing timeless quality and craftsmanship.

EARTH BAMBOO

HANDWOVEN

50% NEW ZEALAND WOOL / 50% BAMBOO

Pile height: 11-12 mm

Weight: 4,00 kg/m²

Earth Bamboo combines the softest, most lustrous surface with robustness and durability, making sure that the carpet works perfectly in almost any interior. massimo achieves this by blending soft bamboo fibre with New Zealand wool of the highest quality.

By mixing equal parts wool and bamboo fibres, we are able to create a finished rug with an exceptional level of sturdiness, protecting the rug against wear and tear and pressure marks, without sacrificing on the luxurious look and feel.

BAMBOO

HANDWOVEN

100% BAMBOO

Pile height: 10-11 mm

Weight: 4,00 kg/m²

Massimo's BAMBOO rugs are made of 100% bamboo fibres, which gives a luxurious feeling due to the unique softness and shiny surface. Bamboo fibres are made of bamboo pulp and have strong stability and tenacity. The quality of the fibres minimizes peeling to almost nothing. The production of Bamboo is sustainable as it thrives without any pesticides and also it is biodegradable and thus a very eco-friendly material. Ideal choice for bedrooms and living rooms, adding a soft and luminous texture.

REPEAT

HANDTUFTED

Pile height: 15-18 mm
Weight: 4,50 kg/m²

RePeat collection represents an innovative and sustainable take on textiles. Handtufted from recycled plastic (rPET), with an additional OEKO-TEX cotton layer on the backside, making it suitable for any type of floor.

A lightweight fibre obtained from the material produced through the process of recovery and reuse of PET, presents a high resistance to wear and tear, and offers good thermal properties, which makes it a perfect choice for textiles at home and commercial settings. The composition makes the RePeat rugs both earth-friendly and easy to care for. The fibre resists stains, mold, mildew and moisture. You can clean them simply by using a garden hose or spot clean with a damp sponge.

TRASH

HANDKNOTTED

100% WOOL

Pile height: N/A
Weight: 3,8 kg/m²

Unique rugs transformed from traditional centuries old handknotted rugs. We wash them, some we use as they are, some we trash, some we color and some we bleach. We strive to obtain that expression of decadent decay which adds so much class to all kind of environments. The rugs are easy to maintain and the more you use them the more character they get.

RUG UNDERLAY

OEKO-TEX POLYESTER

When choosing a perfect rug, it is important to not forget the underlay. Rug underlay will improve how your rug feels underfoot, but it will also help maintain your rug as well as provide extra protection against moisture. Underlay carpets are also useful as noise protectors as they minimize the sounds such as footsteps, voices or moving furniture.

Norm Architects is a multidisciplinary studio utilising design to enrich daily life. Founded in 2008, their practice works from the belief that architecture, interior and product design can and should re-sensitize the modern human lifestyle. Projects of all scales are guided by the essential and universal needs of body and mind to arrive at outcomes that feel as good as they look and that age gracefully. Through natural materials, simple geometries and thoughtfully composed atmospheres, Norm Architects aim to nurture all five human senses, support the human form and provide enduring functionality. The Copenhagen-based studio merges Scandinavian traditions with an international perspective and cultural curiosity to deliver site-specific spaces and objects defined by exceptional craft, beauty and longevity.

Signe Bindslev Henriksen and Peter Bundgaard Rützou, Space Copenhagen is a design studio that works across multiple disciplines from interior design for private homes, hotels and restaurants all over the world to art installations and art direction, furniture, lighting and refined objects. The studio's intuitive approach embodies designs that are distinctively shaped by given circumstances, functional needs, and a fundamental interest in human behavior. It is a sense of and belief in a slow aesthetic that centers quality and longevity. Their work is characterized by meticulous attention to the concept and details of every project, and a steady focus on refining design ideas across disciplines to arrive at a solution which is as coherent as it is beautiful.

ATOLL by Signe Hytte

HANDTUFTED

100% UNDYED NATURAL WOOL

Pile height: 12-13 mm

Weight: 4.5 kg/m²

The Atoll collection is inspired by the world of art and graphical elements. Through calm minimalism and abstract expressionism, the collection is designed to infuse the home with a welcoming tactile quality, achieved through hand-drawn elements that add a personal touch to the rugs. These rugs become small works of art in their own right, and, much like the name 'atoll,' they provide the home with serene and steady "islands" for the furniture to rest upon.

Signe Hytte Studio is based in the heart of Copenhagen. Drawing inspiration from culture and art rather than trends and tech, the idea is to create objects, designs, and interiors that tell a story. With meticulous attention to detail, every project is an expression of a feeling, a dream, or an idea. Formerly working as Head of Design for Danish furniture brand & tradition, Signe Hytte combines an artistic outlook and commercial understanding with designs that come alive through visual storytelling. Signe Hytte Studio works within the fields of product design and creative consultancy.

STRUCTURES 2.0 by OEO Studio

HANDTUFTED

100% NEW ZEALAND WOOL

Pile height: 15-18 mm
Weight: 4,50 kg/m²

The new subdued colour scheme of the now iconic Fragments collection by OEO Studio. This new palette allows the design to take on a different role, becoming more sophisticated and mystic in its overall aesthetic. The inspiration behind the Structures collection is "traces of man" with a strong cross-cultural approach. The pattern design of the collection plays with references to past civilizations, drawing inspiration from old Chinese stamps as well as rural art and folklore. Handtufted from STANDARD 100 by OEKO-TEX certified New Zealand Wool, with an additional OEKO-TEX cotton layer on the backside, making it suitable for any type of floor, for both residential and commercial spaces.

STRUCTURES by OEO Studio

HANDTUFTED

50% NEW ZEALAND WOOL / 50% BAMBOO

Pile height: 15-18 mm
Weight: 4,50 kg/m²

The series of luxurious carpets by OEO Studio for massimo has a distinctly graphic character. The image - or signifier - is after all the particular legacy of man's presence on earth through millennia. Where two colours meet, their contours are hand cut. This procedure helps each motif to stand out. Whilst the process is time-consuming, the result is certainly something to treasure.

Thomas Lykke and Anne-Marie Buemann, founders of OEO Studio, have established a distinct aesthetic which bridges the difference between individual detail and overall décor. Their work can be seen in individual homes, hotels, furniture production and other applications. Their philosophy allows for each project to develop its own 'soul'. This is a factor of both the natural materials they use and the vision a customer has in mind - as is the case with massimo's 'Fragments' series. Colours and materials are often deployed in unexpected ways - each time taking inspiration from their potential to provide a convivial backdrop for human interaction.

SYMMETRY by Jacek Kolasiński - Loft Kolasiński

HANDTUFTED

100% NEW ZEALAND WOOL

Pile height: 15-18 mm
Weight: 4.5 kg/m²

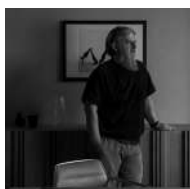

The "Symmetry" rug collection explores the intersection of natural chaos and human-made order. Inspired by the idea that straight lines are a creation of human invention, each rug features bold, intersecting lines that cross in deliberate patterns, embodying the symmetry we impose on the world. Dynamic streaks flow across the surface, creating a sense of movement and energy, while an intricate framework provides structure and balance. The overall arrangement has a modern, architectural vibe, with the interplay of lines within the framework creating a contemporary, layered aesthetic. Underlay carpet is recommended. Suitable for domestic and contract use.

Studio Loft Kolasiński was established in Poland in 2011. It creates comprehensive designs for private and public interiors as well as industrial design. To complement its interiors, the studio designs and produces high-quality wooden furniture and accessories, using natural materials such as wood, stone, clay, linen, and wool. Loft Kolasiński collaborates with small craft workshops, supporting traditional production methods, and specializes in sourcing and renovating unique vintage furniture and accessories. The studio continually expands its network of specialists in rare crafts to deliver bespoke interior designs. Its portfolio includes adaptations of industrial buildings, attics, historic houses, and apartments, all marked by a distinctive aesthetic and meticulous attention to detail. Although originally founded in Poland, Loft Kolasiński now undertakes projects across Europe.

Facne Design Studio was founded by Mathilde Witt Mølholm and Kamilla Schultz. Their primary field of experience is interior design, graphic design, furniture design, exhibition design, concept development and trend forecasting. Their way of working revolves around user needs. For each project they carefully uncover unknown needs and dive into their own in-depth knowledge of materials. Honing in on the unredeemed potential of each project they always end up transforming ambitious ideas into inspiring and beautiful designs.

HORIZON by Tanja Kirst

HANDWOVEN

100% ITALIAN HEMP/COTTON BACKING

Pile height: N/A
Weight: 3,00 kg/m²

Horizon, a new rug collection by Tanja Kirst for Massimo Copenhagen, is inspired by the meeting of sky and earth. Exploring soft transitions, natural gradients and the quiet beauty of shifting light, the collection captures a sense of depth, openness and calm movement. Layers of muted tones blend seamlessly, creating a fluid and harmonious expression that feels both subtle and timeless. Woven from sustainable hemp yarn, Horizon brings an earthy, grounding presence into the space, balancing contemporary simplicity with natural serenity.

Tanja Kirst's work is characterized by reflection on thoughts and details that you don't immediately recognize. This includes subtle colour transition and gradation into shades. Tanja Kirst works with hemp as a sustainable alternative in textile design, rethinking a well-known material in a space between design and craftsmanship, she gives this eco-friendly material a whole new appeal. With interaction and observation, all the functions and details can be experienced over time. This experimental process and way of designing is developed with an intention to add more value to the textile – and to give a poetic approach and longevity to the product.

All rugs are handmade - size deviation on +/- 3% must be accepted.		Prices marked with grey = special sizes with 16-18 week delivery time

AFFINITY by Vera&Kyte

HANDTUFTED

100% NEW ZEALAND WOOL

Pile height: 8-22mm

Weight: 5,00 kg/m²

The design bridges the gap between the organic and geometric. The soft scattered sprinkles are all neatly framed within a simplistic geometric motif within a solid color base. The different pile heights and hand cut shapes create an impression of layers. By using the finest New Zealand Wool, we are able to create a finished rug with an exceptional level of sturdiness, protecting the rug against wear and tear and pressure marks, without sacrificing on the luxurious look and feel.

A Norwegian design duo, Vera & Kyte consists of Vera Kleppe and Åshild Kyte. Together they work within the fields of furniture, products and interior architecture. Always seeking new impressions, eager to discover the triggers for the next idea. This curious approach leads them to constantly explore new materials and aesthetics. Applying an analytical approach they seek to transform their curiosity into products that engage.

Fine Collection

NETTLE by Space Copenhagen

HANDWOVEN

100% NEPALESE NETTLE

Pile height: N/A
Weight: 1,8 kg/m²

Crafted from handwoven, undyed nettle, this rug embodies a quiet and natural luxury. The unique fibre lends a rich tactile quality and subtle organic variations, creating depth and visual interest without the need for colour or embellishment. Timeless, authentic and beautifully understated, it offers a sophisticated foundation that connects contemporary interiors with the beauty of natural materials.

TERRENE LINEN by Space Copenhagen

HANDKNOTTED

100% EUROPEAN LINEN

Pile height: 12-14 mm
Weight: 4,4 kg/m²

Terrene is a celebration of natural simplicity and grounded elegance. Crafted from 100% linen in its pure, undyed form, the rug highlights the beauty of organic fibres and subtle earthy tones. Its tactile texture and understated character create a calm, sophisticated presence, bringing warmth and authenticity to any interior. Timeless and refined, Terrene offers a connection to nature through both material and design.

Signe Bindslev Henriksen and Peter Bundgaard Rützou, Space Copenhagen is a design studio that works across multiple disciplines from interior design for private homes, hotels and restaurants all over the world to art installations and art direction, furniture, lighting and refined objects. The studio's intuitive approach embodies designs that are distinctively shaped by given circumstances, functional needs, and a fundamental interest in human behavior. It is a sense of and belief in a slow aesthetic that centers quality and longevity. Their work is characterized by meticulous attention to the concept and details of every project, and a steady focus on refining design ideas across disciplines to arrive at a solution which is as coherent as it is beautiful.

TRELLIS by Emily Broom

HANDKNOTTED

100% LINEN

Pile height: 6-7 mm
Weight: 3.80 kg/m²

Trellis is a study in structure and sophistication. Inspired by the precision of architectural frameworks and the rhythm of woven textiles, its clean, geometric pattern creates a sense of order and timeless style. Crafted from high-quality linen in neutral tones, Trellis features a mix of looped and cut piles, adding both depth and texture. This rug brings both warmth and balance to any space, offering a foundation that feels contemporary yet enduring.

Emily Broom is an Australian-born designer based in Copenhagen, with a background in Architecture, Interior Design, and Visual Communication. Since relocating to Denmark, she has contributed to projects for acclaimed studios including Space Copenhagen, Norm Architects, and Dorte Mandrup, working on architecture and interiors across Europe and the US. In 2019, she founded her own studio in Copenhagen, where she develops architectural concepts, furniture, and functional objects with a focus on quiet elegance and purposeful form. Her work is defined by a sensitivity to material, atmosphere, and spatial harmony.

MONTE

HANDKNOTTED

100% MERINO WOOL

Pile height: Low Cut 5 mm |
High Cut 8-9 mm
Weight: 4,70 kg/m²

The Monte rug is made of high-quality Merino Wool fibres, which give a luxurious and durable rug. Different pile heights in unique geometric shapes create an elegant pattern with a luxuriously deep and sumptuous texture. Merino sheep grow the most opulent and soft fleece, that is famed for its fineness and delightful touch. The softness that Merino wool brings to carpet in no way diminishes performance. As in all wool, Merino wool is natural, sustainable, renewable and biodegradable. Merino wool carpet is naturally stain, soil and crush resistant.

LORO

HANDKNOTTED

ALPACA WOOL / BAMBOO

Pile height: 9-11 mm

Weight: 5,00 kg/m²

The Loro rug is handknotted from finest Alpaca Wool, mixed with a little touch of bamboo fibres, which together give a durable rug with a light shine. Alpaca wool is a natural animal fibre that is fully biodegradable, soft, strong and warm. Alpaca fibres are considered extremely water resistant, while staying highly breathable. They have a higher tensile strength, meaning they can stand up to more pressure or tension before breaking. Bamboo fibres are made of bamboo pulp and have strong durability, stability and tenacity. The production of Bamboo is sustainable as it thrives without any pesticides and also it is biodegradable and thus a very eco-friendly material.
